

Newcastle Upon Tyne headquartered International recruitment firm, Nigel Wright Group, has confirmed that its North East regional business, which includes offices in Newcastle and Teesside, has achieved an all-time record performance for a third successive year. The firm's Teesside office based at Wynyard Park also delivered a record month in April, to coincide with its first anniversary.

Group Executive Director Mark Simpson said of the results;

'Building on the 30-year foundation in the North East, this year we have reinforced long standing relationships with key businesses and industry sectors, while establishing new ones in emerging and growth industries. The record revenues achieved are due to the calibre of our people, exceptional training and development focus at all levels and a strengthened market position in a number of disciplines and sectors, through making significant new hires and investment in our franchise at Teesside.'

Simpson continued;

'Undoubtedly, insecurities regarding the June referendum on the EU membership have begun to have an impact on investment decisions in the region, and across the UK in general. Despite this, our end of year results, as well as our healthy pipeline of work, demonstrate that the market continues to value our services and expertise. As such, we want to keep adding more talented people to our teams over the next few months.'

Nigel Wright Group offers recruitment expertise in a range of discipline areas including Finance, IT, HR, Engineering & Manufacturing, Supply Chain & Procurement and Sales & Marketing and covers all of the main sectors in the region comprising Business & Professional Services, Consumer, Industrial & Manufacturing, Digital & Creative, Chemical & Pharma and Public & Third Sector.
